Vehicle Maintenance App

The Vehicle Management App is designed to help individuals and organizations easily keep track of their vehicle information, including mileage, maintenance, and servicing history. Its goal is to simplify everyday vehicle management through an intuitive interface and real-time data updates.

PROBLEM STATEMENT

Outdated Methods

Although paperwork for vehicle records has largely been replaced by digital tools, many vehicle owners and fleet managers still lack a simple, all-in-one mobile app.

Complex Solutions

Existing solutions can be complex, expensive, or not user-friendly, making it difficult for everyday users to keep their vehicle information organized and up-to-date.

Solution

Easy Tracking

Avoid manual record-keeping with digital vehicle management

Data-Driven

Help plan future maintenance and reduce vehicle downtime

Time-saving

Centralized vehicle information reduces administrative work

Error Reduction

Minimizes lost or forgotten maintenance history

Portable

Carry all vehicle information in your pocket

App Features

List of Vehicles

Displays all vehicles with name and mileage information in an easy-to-read format.

Add Vehicle

Quickly add new cars or bikes with a simple form interface.

Edit & Delete

Easily update mileage or remove vehicles when needed.

Maintenance Records

Keep a log of oil changes, tire rotations, and other services with dates.

User-friendly Interface

Intuitive design for quick access to all features with minimal learning curve.

Cross-platform Support

Runs seamlessly on both Android and iOS devices with consistent experience.

Available On:

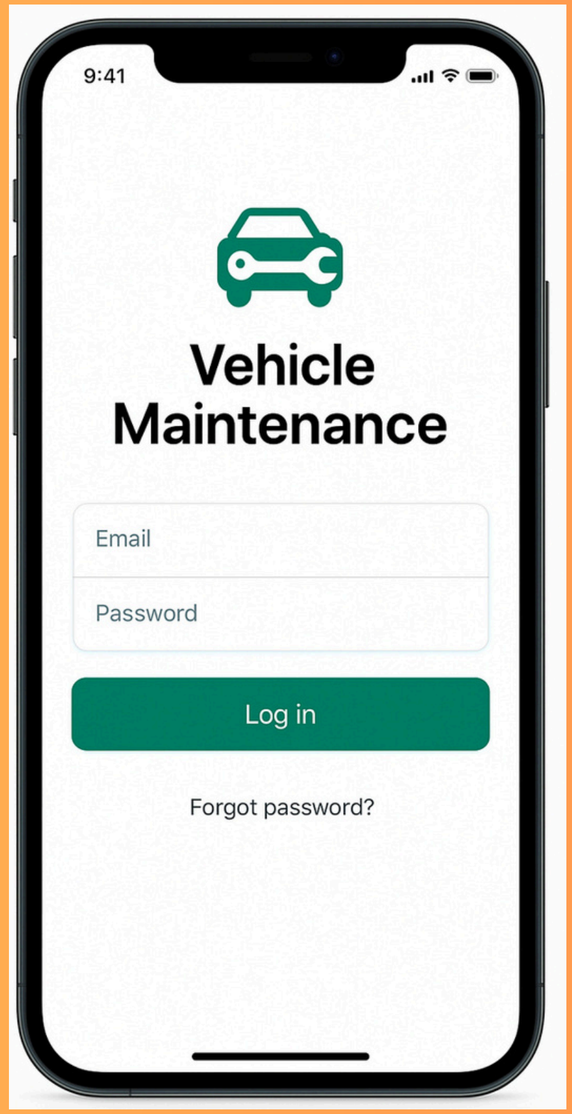
App Screen Shots

Secure Access

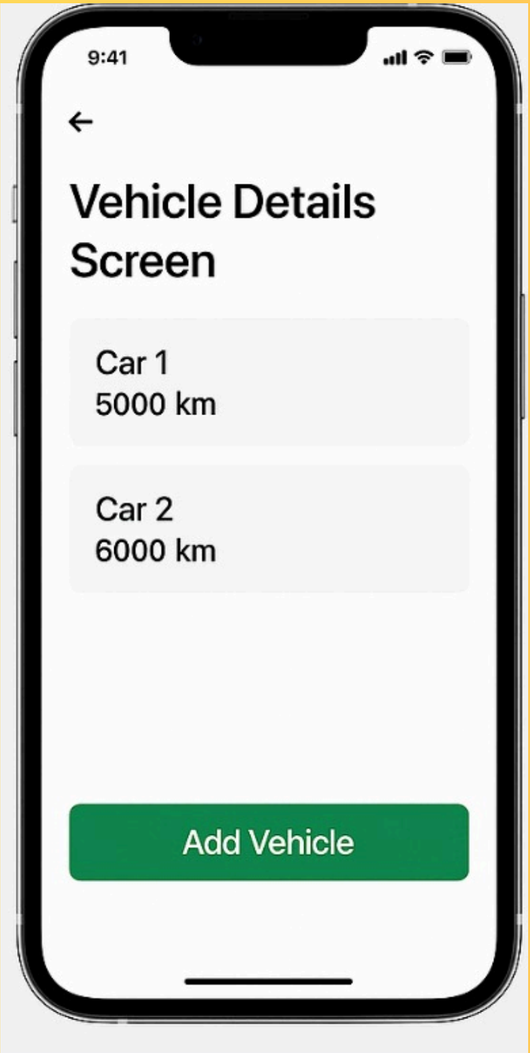
Protect your vehicle data with email andpassword authentication

User Accounts

Personalized experience with individual user profiles

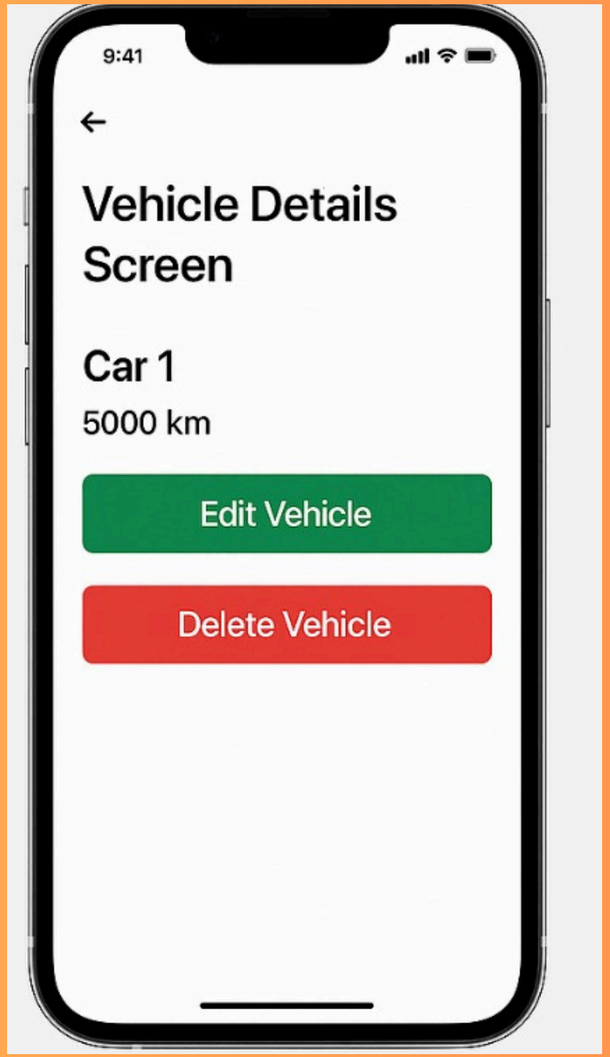


Vehicle List Screen



Displays all vehicles with their names and current mileage

Shows detailed information about a selected vehicle with edit and delete options



USER INTERFACE
